Internet of Things. Think WiSmart™

The EC32Lxx family of modules is the ultimate choice for product designers who want to integrate Wi-Fi into their network connected devices and appliances. The EC32LXX has the lowest power consumption, smallest footprint, the most comprehensive software library and open source applications.

Resource	EC32L13	EC32L14	EC32L24	EC32L44
Processor (MCU)	STM32F103RF ARM Cortex-M3 32bit	STM32F103RG ARM Cortex-M3 32bit	STM32F205RG ARM Cortex-M3 32bit	STM32F405RG ARM Cortex-M4 32bit
Clock	72MHz	72MHz	120MHz	168MHz
