NetKey Keystone Style Jack Modules

Part Numbers: NK366M**Y, NK388M**Y, NK588M**Y, NK5E88M**Y, NK5E88M**Y-Q

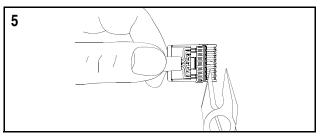

© Panduit Corp. 2014 INSTALLATION INSTRUCTIONS NK178C

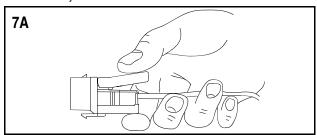

Remove 3" (76.2mm) of cable jacket and untwist pairs.

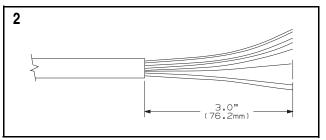

Cut conductors on an angle and insert into cap.

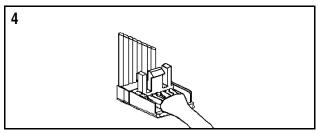

Trim conductors flush with cap using wire snipping tool (CWST). NOTE: Cable jacket is inside the cover.

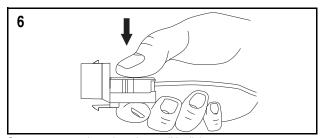

Apply pressure to cap until it clicks again. Cap must be flush on housing.

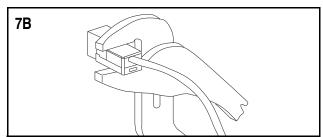

Straighten conductors and arrange in proper color sequence.

Pull conductors until outer jacket is inside cap. Bend up 90°.

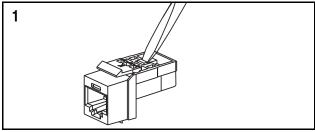

Snap cap squarely on housing until it clicks.

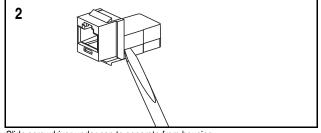

Use Snap Tool (7A) or standard Slip Lock Pliers (7B).

Termination Cap Removal Instructions

Push forward and down against latch at end of guide ramp until cap releases.

Slide screwdriver under cap to separate from housing.

--- KEYSTONE STYLE PANEL OPENING REQUIREMENTS ---

Notes:

- For specified performance, follow TIA/EIA 568A installation guidelines and use equivalent or higher category twisted pair cable.
- 2. Keystone Style Jack Modules can terminate PVC or Plenum rated 22-24 AWG solid or stranded IWC cable with 0.048 inch (1.2mm) maximum insulated conductor outside diameter.
- Keystone Style Jack Modules may be reterminated a minimum of 10 times.
- 4. For technical and performance data, refer to catalog or consult Panduit Technical Support.

- As with all Wiring Accessories, the following statements apply:

 1. Never install communications wiring during a lightning storm.

 2. Never install communications wiring in wet locations unless the jack is specifically designed for use in wet locations.
- Never touch uninsulated communications wiring or terminals unless the communication line has been disconnected at the network interface.
- 4. Use caution when installing or modifying communication wiring.
